

Distributor Logo

Dear (customer),

We appreciate your business, and for the continued opportunity to offer a variety of quality products, and information that will meet your gasketing needs.

With a focus on quality, we are happy to offer you, a valued (Distributor name) customer, a gasket with unmatched sealing reliability and strength for steel pipe and equipment flanges requiring standard or complex gasketing shapes and sizes.

GORE® GR Sheet Gasketing

Gore gaskets more reliably withstand the harsh environment of dynamically operated bolted flange connections. With tightness that is superior to other PTFE gaskets, GORE® GR Sheet Gasketing improve process efficiencies while protecting the environment, and plant personnel.

This product offers a sheet gasket material that is:

- Chemical resistant to almost all media (pH 0-14)
- Resists creep and cold flow, unlike traditional skived and filled PTFE gaskets
- Conformable to flange deviations and surface finishes for incredible tightness and sealing performance

Please feel free to reach out to (contact name) at (contact phone number) or (contact email) if you have a particular application for which you would like to explore the use of this sheet and cut gasket material.

Visit this link **GORE® GR Sheet Gasketing** for more technical information about this product. (or suggest link through distributor website, and then to Gore)

Thank you for your continued support!
