

GORE AT A GLANCE

Together, improving life

Built on a Dream

Founded by Bill and Vieve Gore on a dream to reinvent markets with novel ideas about organizing a company and unleashing creative potential, W. L. Gore & Associates remains a privately-held company committed to improving lives in the markets and communities in which it operates.

1958

Financially strong

\$5.3

Billion of annual revenues

1969

Bob Gore discovered expanded polytetrafluoroethylene (ePTFE), unlocking new opportunities for Gore to positively contribute to society through materials science innovations.
