

GORE® FILTER BAGS BRING COMMERCIAL FLUE GAS CLEANING TECHNOLOGY TO POINT SOURCE CARBON CAPTURE

Critical Needs

Maximizing **CCUS system efficiency** and meeting transportation specs are driving the need to reduce particulate, NOx and SOx in flue gas.

Avoid particulate contamination

Lower energy consumption

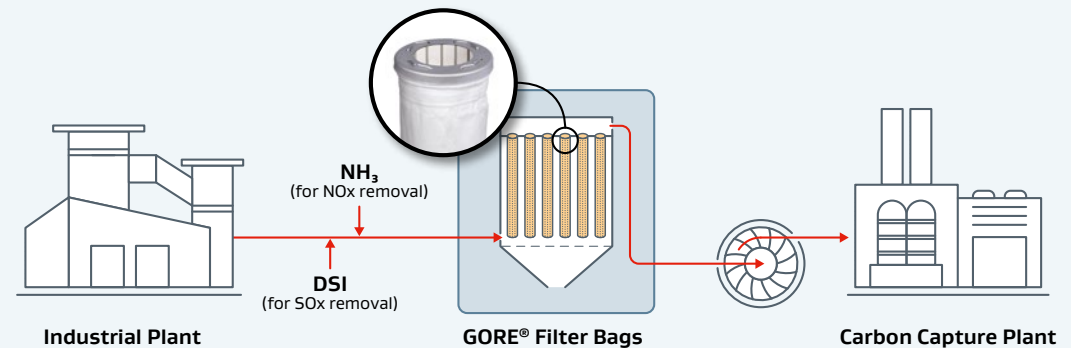

Minimize corrosion

Eliminate solvent solution degradation

Gore's Expertise

Proven, reliable technology to simplify industrial flue gas treatment.

PM, NOx and SOx removal in a single, low maintenance unit

>200 CCUS Industry connections

Commercial in

- Cement
- Steel
- Waste-to-energy
- Lime
- Coal-fired Power

>15 CCUS projects
(Demos -> FEED)
