

# INSTALLATION GUIDE: PLUG-IN VENTS FOR PRESS-FIT INTEGRATION

Gore's Plug-in Vents enable fast, easy press-fit and snap-fit integration using either manual or automated installation methods.

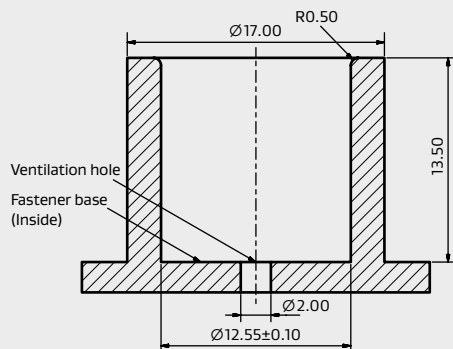

These installation guidelines are recommended to ensure a leak-tight fit in most commercially-available PP and PE plastic closures. Should any leaks occur due to the material, structure or stability of the closure, or due to the chemical and physical properties of the liquid contents, you may adjust these dimensions as needed.

### Notes

Please note that the membrane may be damaged if not handled correctly, which can lead to leaks. Therefore, avoid touching, compressing or squeezing the membrane and avoid contact with sharp objects.

Do not wash or re-use. GORE® Packaging Vents are for single use only.

Wear latex-free gloves or finger cots when handling GORE® Packaging Vents.

Avoid contact with sharp objects. Do not touch, compress or squeeze the membrane.

### FOR INDUSTRIAL USE ONLY. Not for use in food, drug, cosmetic or medical device manufacturing, processing, or packaging operations.
