

GORE™ PTFE

HOOK-UP WIRE

PTFE Hook-up Wire

Summary

Gore manufactures a variety of standard and custom PTFE insulated wire for any hook-up application. Standard products meet popular military standards. Custom versions can meet mil specifications while offering reduced diameter and weight.

As the industry's only vertically integrated supplier, Gore's proprietary PTFE tape wrap material is produced free of pinholes and with the highest uniformity, making us the leader in high performance hook-up wire.

- Type ET: MIL-W-16878/20, 250 Volts
- Type E: MIL-W-16878/21, 600 Volts
- Type EE: MIL-W-16878/22, 1000 Volts

Gore extends the mil standard series into a subminiature range of products as small as 42 AWG.

All varieties benefit from Gore's 40 years of vertical integration of fluoropolymer material development and highly evolved tape wrap process.

- Rated for temperature extremes
- Non-flammable, non-outgassing materials
- High uniformity and concentricity

Gore manufactures a variety of standard and custom PTFE insulated wire for any hook-up application.

PROPERTIES OF GORE™ PTFE HOOK-UP WIRE

Construction	Conductors are helically wrapped with overlapping PTFE resin tapes which are then sintered into a homogeneous mass conforming to MIL-W-16878
Temperature rating	–65°C to 200°C SPC Conductors –65°C to 200°C NPC Conductors per MIL-W-16878
Conductors	Silver-plated copper conductors are standard. Special conductors such as nickel-plated copper, stainless steel strands, high-strength copper alloys, silver, pure nickel, copperweld, beryllium copper, etc. are also available.
Color coding	Standard hook-up wire is supplied in solid colors to MIL-STD-104. Striping is also available upon request.
Voltage rating	See the following tables
Approvals	See the following tables
Bondability	Surface treatment to make the insulation bondable may be specified

GORE™ PTFE Hook-up Wire Type ET

Product Class	NEMA HP 3 (MIL-W-16878/20)
Voltage Rating	250 Volts
Approvals	AWG 20 through 32 are listed under Underwriters' Laboratories, Inc. Style No. 1371 (105°C). No voltage specified.

GORE™ PTFE Hook-up Wire Type E

Product Class	NEMA HP 3 (MIL-W-16878/21)
Voltage Rating	600 Volts
Approvals	AWG 18 through 32 are listed under Underwriters' Laboratories, Inc. Style No. 1371 (105°C). No voltage specified.
